

# Jetting Tables

## Optional 25 Horsepower jetting for 40 and 50 PSI Fuel Pressure

ATTENTION: Use this optional horsepower jetting for the following NitrousWorks Nitrous Oxide kits: 13090, 13091, 13092 and 13093

Fuel Pressure	Nitrous Jet	Fuel Jet	Tuning Jet(s)
40	24	18	16, 22
50	24	16	13, 18

Failure to use the proper jetting to match your fuel pressure can result in poor performance and/or severe engine damage!

## Jetting for vehicles with 50 psi fuel pressure

ATTENTION: For vehicles operating at 50 psi fuel pressure, use the following optional jetting. For vehicles operating at 40 psi, use the standard jetting from the NitrousWorks instructions that accompanied your kit.

Horsepower Level	Nitrous Jet	Fuel Jet	Tuning Jet(s)
25	24	16	13, 18
50	33	22	20, 24
75	42	26	25, 28
100	55	29	28, 31
125*	59	31	29, 32
150*	62	32	31, 33
175*	70	33	32, 35

(\*) These jets included in 17060 Nozzle Upgrade Kit

Failure to use the proper jetting to match your fuel pressure can result in poor performance and/or severe engine damage!
